## APPENDIX G-3

### III. Reasonable Distance, Very Low Income, Definition of Engaged In Work For Child Care In Lieu of Temporary Assistance, Family Share, Case Closings and Openings, and Fraud and Abuse Control Activities\_ (Required Section)

#### Reasonable Distance

Your district is required to define reasonable distance based on community standards for determining accessible child care.

The following defines "reasonable distance": **Recipients who must travel 60 minutes or more to access child care will not be required to comply with work requirements.**

Describe any steps/consultations made to arrive at your definition: **Continuing previous defined standard as developed by an agency wide workgroup.**

#### Very Low Income

Very Low Income is defined by each district and is used in determining priorities for child care benefits.

Very Low Income is defined as **150%** of the State Income Standard.

#### Definition of Engaged In Work For Child Care In Lieu of Temporary Assistance

The minimum number of hours for Federal Fiscal Year 2006 are:

- 20 hours for a single parent with a child under the age of six years old
- 30 hours for a single parent whose children are six years of age and older
- in two parent families the parents must be working a combined total of 55 hours with at least one parent working 30 or more hours.

If a district proposes a higher minimum number of required hours of work describe the requirement below.

- hours for a single parent with a child under the age of six years old
- hours for a single parent whose children are six years of age and older
- in two parent families the parents must be working a combined total of 55hours with at least one parent working           or more hours.

#### Family Share

Family share is the weekly amount paid towards the costs of the child care services by the child's parent or caretaker. In establishing family share, your district must select a percentage from 10% to 35% to use in calculating the family share. The family share of child care is calculated by applying the family share percentage against the amount of the family's annual gross income that is in excess of the State Income Standard divided by 52.

Family Share Percentage selected by our district **35%**.

#### Case Closings (select one or two)

1. The district must describe below how priority is given to federally mandated priorities and describe local priorities. If all NYSCCBG funds are committed, the district will discontinue funding to those families that have lower priorities in order to serve families with higher priorities. Described below is how the district will select cases to be closed in the event that there are insufficient or no funds available.

**Cases with the highest income will be closed first, initially reducing the income level to 175% of the State Income Standard (SIS), then to 150% of SIS, for all families not on TA. If there are still insufficient funds, the income level would then be reduced to 125% of SIS, followed by a reduction to 100% of SIS, if necessary.**

**Special needs families up to 200% of the poverty level will be given priority over very low income families.**

**As cases are closed due to funding, the case will be added to the waiting list. New applicants will also be added to waiting list below the cases that were closed due to funding.**

2. The district has not established priorities beyond the federally-mandated priorities. If all NYSCCBG funds are committed, case closings for families which are not eligible under a child care guarantee and are not a federally-mandated priority must be based on the length of time in receipt of services. The length of time used to close cases may be based either on the shortest or longest time receiving child care services but must be consistent for all families. The district has chosen to close cases based on:

- shortest time receiving child care services
- longest time receiving child care services

#### **Case Openings**

The district must describe below how priority is given to federally mandated priorities and how the district will select cases to be opened in the event that there are insufficient funds available.

**Cases will be opened in the reverse order of the closing criteria.**

#### **Fraud and Abuse Control Activities**

The district must identify below the criteria it will use to determine which child care subsidy applications suggest a higher than acceptable risk for fraudulent or erroneous child care subsidy payment and procedures for referring such applications to the district's front end detection system.

#### **SEE ATTACHED FEDS PLAN**

The district must describe below its sampling methodology used to determine which cases it will seek verification of an applicant or recipient's continued need for child care including, as applicable, verification of participation in employment, education or other required activities.

**Orange County verifies the continued need for child care by conducting re-certifications every six months of 100% of service cases. The unit requests pay stub info and submission of employer worksheets.**

The district must describe below its sampling methodology used to determine which child care providers of subsidized child care services they will review for the purpose of comparing the child care providers' attendance forms for children receiving subsidized child care services and any child and adult care food program inspection forms to verify that child care was actually provided on the days listed on the attendance forms.

**Based on the number of providers in CACFP (Oct 06), Orange County has a total of 62 cases to include in our reviewing process. The 62 cases are comprised of 17 family day care (FDCH); 42 group family day care (GRDC); two Legally exempt day care (LE) and one Military. Our number does not include any day care centers (DCC).**

**Orange County will compare the caregiver's attendance forms with any child and adult care food program inspection forms to verify that child care was actually provided on the days listed. Based on our universe size of 62, we will use a sample size of 52. Therefore, we will review five (5) cases per month.**

**Orange County has asked an employee of the Child Care Council to conduct a random sample of those providers in CACFP. She will cross reference the attendance sheets with the child and adult care food program information. Should there be any questionable information discovered, the Child Care Council representative would notify the worker in the Child Care Unit. If the worker believes that further investigation is warranted a referral would be made to our fraud unit.**

Section 132 of the Social Service Law (SSL) provides broad authority to local districts to conduct investigations of applicants/recipients of public assistance. The provisions in Section 132 permit local districts to establish procedures, which will ensure a verification of eligibility for all or part of their client population. The Eligibility Verification Review (EVR) is a fraud and abuse detection and prevention process designed to identify fraud and overpayments in assistance programs.

Orange County is requesting approval for an Eligibility Verification Review plan for the following populations:

- **All non-FEDS Safety Net Assistance applicants**

As part of our local FEDS process, Orange County is highlighting the importance of using the Eligibility Verification Review (EVR) in determining fraud at the front end of the application process. EVR involves a thorough investigation of all applicants for all non-FEDS SNA cases and may include a home visit and/or the use of collateral contacts in addition to the traditional eligibility assessment. As with FEDS, an EVR referral is sent to the SIU Supervisor (HEAD Social Welfare Examiner), logged-in, assigned and tracked by the SIU Supervisor. A contact letter is mailed to the applicant and in most cases a telephone interview will be conducted. In the event the investigator determines that information has not been reported accurately as part of the application process, a home visit will be conducted to explore the circumstances of the application.

Applicants whose cases are confirmed denied or withdrawn due to the EVR review will be reported monthly to OTDA A&QC on the automated monthly report.

**APPENDIX G-8**  
**ADDITIONAL LOCAL STANDARDS FOR CHILD CARE PROVIDERS**

The district may propose local standards in addition to the State standards for providers who will receive child care subsidies.

1. Described below are the additional local standards that will be required of providers as well as which providers must comply with each additional standard.

**Providers of legally-exempt child care and all household members 18 years of age and older will be asked to sign a release which will allow our Department to conduct a local child welfare database check.**

**If a legally-exempt provider or household member refuses to sign the release which, would allow our Department to conduct local database checks, our Department will inform the parent/caretaker of the refusal so that they can consider the refusal when they make a decision to select the provider. In these situations, parents will be reminded of their right to choose another provider and will be given information about how to locate other providers.**

**When a local database check reveals that a legally-exempt provider(s) and/or household member(s) 18 years of age and older are an indicated subject of a child abuse or maltreatment report they will be required to submit to our Department a written statement providing information concerning the indicated incident(s). Providers are notified in writing that a statement is needed. This statement must be received by the Department within five calendar days of the provider's receipt of the written notice. This statement must be signed by the parent/caretaker acknowledging receipt of this information and the parent/caretaker's wish to use this child care provider.**

**If the information regarding the indicated child protective report does not correlate with the information obtained from the local data base check our Department will notify the provider in writing that they have five calendar days to clarify the discrepancies in the information submitted to the Department and parent/caretaker. Within that five calendar day period the provider must submit information to our Department and the parent/caretaker that either correlates with the information obtained by our Department's local database check or the providers submits information to our Department which documents that the information obtained from the local database check is inaccurate. If the provider fails to clarify the discrepancies the district will notify the enrollment agency that the additional standard has not been met.**

**If the information regarding the indicated child protective report correlates with the information obtained from the local database check the enrollment agency will be notified that the additional standard has been met. In some cases, our district will need to inform the parent that the parent's decision to place with child in the care of this provider would place their child at risk. As mandated reporters, the district is obligated to make a report of suspected child abuse or maltreatment if placing the child in the care of a provider would place the child in imminent danger of impairment and the parent/caretaker nevertheless places the child in provider's care. Parents will be informed of their right to choose an alternative provider and be given information about how to locate other providers.**

2. Described below are the methods and resources that will be utilized to determine that these additional local standards are being met.

**Our district will provide the release, which will allow our Department to conduct a local welfare database check, in the enrollment package instruction the provider to return the enrollment package including the release to the enrollment agency. When the enrollment agency receives the signed release they will notify the district. Our district will initiate the local child welfare check and will use procedures outlined in number one after the enrollment agency has notified the district that they have received the signed release.**

**If the local welfare database check reveals an indicated child protective report the Day Care Unit staff will follow the procedures outlined in number one.**

3. Described below are the procedures the district will use to notify the Legally Exempt Caregiver Enrollment Agency as to whether or not the legally exempt provider is in compliance with the additional local standards. (Districts only need to describe this procedure if the additional local standard is applied to legally exempt child care providers.)

**The district will notify the enrollment agency in writing as to whether or not the additional standard has been met. The district will maintain a file, which will document the information used to determine if the standard has been met or not.**

4. Described below is the justification for each additional standard.

**To verify that the provider has given the parent/caretaker complete and accurate information about indicated child abuse and maltreatment reports.**
