

Section 415.9(f) is amended to read as follows:

Where child care services are provided by multiple providers, reimbursement will be made for the actual cost of such services up to the applicable rate for each child care provider used. However, if the combined reimbursement to the multiple providers would exceed one weekly market rate, in order to receive such reimbursement the parent or caretaker must demonstrate that the schedule of employment of the parent or caretaker or the special needs of the child necessitates that child care services be arranged with multiple providers. If the social services district determines that the parent or caretaker has not demonstrated that there is a necessity to use multiple providers, reimbursement is limited to one weekly market rate that is applicable for the type of provider who provides care for the highest number of hours. The social services district will determine how to distribute the reimbursement for the multiple providers.

Section 415.9(j) is amended to read as follows:

Effective October 1, [2003] 2005, following are the local market rates for each social services district set forth by the type of provider, the age of the child and the amount of time the child care services are provided per week. The market rates are established in five groupings of social services districts. Except for districts noted as an exception in the market rate schedule, the rates established for a group apply to all districts in the designated group. The district groupings are as follows:
